

“No One Stays In Love Alone”  
Brandon Rhyder/Radney Foster

Sometimes I stick my foot in my mouth, and I regret it  
I aiming for the truth right now, and I'm gonna hit it  
I see the way you're treating love, and I don't get it

Chorus:

Cause she treats you like gold, and it's worth more then you know  
And I won't stand here one more night, without you being told  
That's she's growing tired, of trying to light your fire  
You better wake up, you better wake up or she'll be gone  
Cause no one stays in love alone

Take a swing at me if you want, but she's hurting  
If you're trying to run her off, well buddy it's working  
There's a long line of guys like me, who want to give her everything  
That's for certain

Chorus:

If you're still in love with her it's getting hard to tell  
I can see her arms wide open, crying out for help

Chorus:
